

The **SNAG-LESS** A totally unique Bottom Bounce sinker.

New!

**Finally...someone has developed a snag less
Bottom Bounce sinker!**

**Gone are the days of constantly replacing
your sinker because yours is stuck in the
mud, caught in weeds or pinned between two
rocks.**

The **SNAG-LESS by LASERTALK™ has
solved your Bottom Bounce problems.**

- Less time wasted trying to retrieve and re-tie your rig from bottom snags. Ideal for derbies and tournaments!
- The unique design allows you to actually feel the bottom surface to determine the best feeding/fishing areas.
- It is so sensitive that you can almost hear the echo's from the bottom transmitted up through the line to your pole.
- Less expense, since you don't have to constantly replace lost sinkers.
- Five different weights for your specific needs: 1, 1.5, 2, 2.5 and 3 ounces, depending on water depth and motor speed.
- All stainless steel, durable, and Eco friendly—no lead and no copper to contaminate the environment.
- Made in the USA
